EDUCATION

University College Dublin, *BSc Computer Science (Second Class Honours)* **September 2019 - May 2023**
Institute of Education, *Irish Leaving Certificate* **September 2018 - May 2019**

EXPERIENCE

Optum, Dublin**, Associate Software Engineer** **July 2023 – Current**
Associate Technology Developer **July 2023 - July 2024**

- **Developed web applications** using **React, TypeScript, HTML, CSS (frontend) and C#, SQL (backend)** that significantly improved operational efficiency and reduced costs:
  - ***Clinical Solutions Project:*** Developed a web application that **reduced healthcare insurance coders' code handle time by 5 minutes per document,** decreasing load times by 30% and implementing responsive design principles to enhance user interface and experience. This resulted in approximately **$6 million in annual savings**.
  - ***OneClick Project*:** Developed a web application that tripled insurance claim processing efficiency, significantly reducing operational costs.
- **Enhanced system performance** by improving CPT code API calls (40% faster data retrieval and 25% greater accuracy) and optimizing backend algorithms (50% reduction in processing time).
- **Led cross-functional collaboration** and training initiatives:
  - Conducted training bootcamps for new hires, reducing onboarding time by 50%.
  - Collaborated with teams across departments to ensure seamless integration and reliability, consistently meeting project milestones ahead of schedule.
  - Received recognition for exceptional teamwork and project delivery.

Intern **June 2022 - August 2022**

- ***PACMAN Project:*** Developed and integrated machine learning models using **CatBoost, XGBoost, and H2O (Python backend; React/TypeScript frontend)** to predict patient medication adherence, increasing prediction accuracy by **10%** and improving patient outcomes.
  - **Streamlined** insurance claim processing workflows, contributing to a **300% increase in efficiency**, and **automated data preprocessing tasks**, reducing manual efforts by **60%.**
- **Collaborated** with data scientists and engineers to deploy models into production, and **conducted training sessions** for team members, enhancing their ability to utilize new technologies effectively.

OTHER TECHNICAL SKILLS

- **Programming Languages:** Java, C, C++, Scala 3, Processing, Erlang
- **Development Tools:** Git, Docker, UNIX, QISKIT, Collibra, Unreal engine, Unity, Jupyter, Pandas, Streamlit, Gradio, Agile Methodology

ADDITIONAL EXPERIENCE

Camp B'nai Brith Montreal**, Waterski Instructor, Lifeguard and Camp Counselor** **June - August 2021**

- Responsible for groups of up to 15 children, aged 8 to 17.
- Instructed water skiing and wakeboarding and conducted search and rescue operations.

Customs House Café, Baltimore Cork**, Barista and Kitchen Staff** **July - August 2019**

- Making and serving coffee alongside training 2 other baristas.

OTHER CERTIFICATIONS AND TRAINING

Pulse College Dublin**,** ***Diploma in Game Development*** **September 2017 - May 2019**
DCU**,** ***Early University Entrance Program in Engineering*** **September 2016 - May 2017**
Cambridge Coding Academy**,** ***Foundation Coding Certificate*** **2016**

OTHER ACTIVITIES AND ACHIEVEMENTS

- ***Leadership:***
  - Vice-Captain and Foreign Trips Officer for the UCD Surf Club (2021)
    - Organized and led 4 local trips, 1 foreign trip, and events for groups ranging from 40 to 400 participants.
    - Managed activities for Ireland's largest university sports club with over 1,500 members.
- ***Volunteering:***
  - Executive committee member at Crosscare's The Beat Youth Club
    - Ran the youth club, organized events, and engaged young people in club activities.
- ***Competitions and Awards:***
  - 1st Place and awarded the Alice Perry Medal in the 2017 Apps4Gaps Programming Competition for the Luas Real-Time Information App.
